

FIRST SPEAR™

WARNING: If you are happy with the status quo and buy your equipment from corner-cutting discounters or big box retailers, FirstSpear™ is not for you. If you demand the best and refuse to compromise, WELCOME TO FirstSpear™. We are built for you, the *Professional User* that works a little harder, runs a little bit faster, shoots a little straighter and continuously raises the bar.

Our core mission, the one that really matters, is to support the people that risk everything for our country and our freedoms. We know what our warfighters need because we actually ask them. When they tell us to make equipment lighter and more capable, without sacrificing durability and function, that is exactly what we do. The gear we make and the values we espouse probably aren't for everyone. But if you want the best in lethality and survivability, you can count on FirstSpear™ to get it done.

We are honored to support your mission and thank you for your loyalty.

– Your FirstSpear™ Team

WHAT'S BEHIND THE NAME?

The Primus Pilus, or First Spear, was the Senior Centurion of a Roman Legion.

“Centurions were the guardians of Rome. At the height of the Roman Republic there were over five thousand qualified Roman Centurions in the Legions. To be a Centurion required that, in a mostly illiterate society, one be able to read and write clearly, to be able to convey and create orders, to be capable of not only performing every skill of a Roman soldier but to teach every skill of a Roman soldier. Becoming a Centurion required intense physical ability, courage beyond the norm, years of sacrifice and a total devotion to the philosophy which was Rome.

When Rome fell to barbarian invaders, there were fewer than five hundred qualified Centurions. Not because Rome had fewer people but because it had fewer people willing to make sacrifices.

And the last Centurions left their shields in the heather and took a barbarian bride....” (Ringo 08)

FirstSpear™ dedicates our work and our efforts to those modern Centurions who hold the line and ensure that our way of life does not fall! It is an honor and a privilege to directly support those at the tip of the spear!

Ringo, John. *The Last Centurion*. New York: Baen, 2008.

FIRSTSPEAR™ DESIGN PHILOSOPHY

The tactical equipment put forth by FirstSpear™ is designed to function interactively as a fighting system. By utilizing the equipment as a system, an overall weight reduction, weight transfer and operational scalability is achieved that is far superior to systems that fail to consider the ultimate challenges that the User must face in an operational environment.

What is integrated into the FirstSpear™ line is reflective of constant dialogue with Users that are on the very tip of the spear. This includes but is not limited to elite organizations within the US Inventory as well as those of other friendly foreign nations that also feel evil is worthy of punishment.

FirstSpear™ achieves this relationship by putting complete focus on the User's needs and their overarching requirements. Each subcomponent of the overall system integrates field feedback from concept development, through rapid prototyping, and ultimately production and delivery. Impact to the overall weight, form, function and durability is considered in every detail down to fabric and hardware selection.

Platforms, like the Sleeper™, SICR™ & OAGRE™ are designed with direct input from professional Users; built to be durable, lightweight, and highly functional. FirstSpear™ incorporates performance driven features that execute both as stand-alone items or integrated into an overarching individual equipment and personal protection system. This system will lower overall weight, reduce bulk off the silhouette contributing to more effective signature suppression and take into account the manipulations required that will benefit operational enhancement.

FirstSpear™ remains focused on the User during approach, actions on and exfiltration from the objective, wherever that objective may be and under any conditions. In short, BATTLEFIELD CAPABILITY!

CAPABILITIES

- ⊕ Rapid Design & Prototyping
- ⊕ Private Label Manufacturing
- ⊕ Short/Medium/Large Production Runs
- ⊕ Berry Compliant Certification Available for Most Products
- ⊕ Small Business Certified

As a FirstSpear™ customer, you can be confident that in those rare cases that a piece of equipment lets you down, we will fix it or replace it at no cost to you.

FirstSpear™ items built to government specific requirements and contracts are guaranteed based on the terms outlined by those programs, built to achieve the best combination of weight and durability for a defined continuous use period.

THE SLEEPER™

WORKS GREAT WITH:
AGB, OAGRE™, SICR™,
& Beat Up™

WEIGHT FOR LARGE CARRIER:
1.97 lbs

MSRP: \$394.98
Add \$45 for Multicam

The Sleeper™, a stay behind asset or less visible alternative to more overt styles of tactical vests? The Sleeper™ is designed to wear over or under garments and can be worn alone or in conjunction with the FirstSpear™ OAGRE™, SICR™, or Beat Up™. For rapidly changing mission sets the Beat Up™ Plate Carrier integrates directly onto the Sleeper™ and upgrades it to a full functioning tactical vest that accepts multiple accessory options. This capability allows the User to have two separate stand-alone capabilities that function together and not only reduce the overall weight of the equipment on their back but reduce logistical deployment volume.

Fits Soft Armor cut to the shape requirements specified for US SOCOM SPEAR BALCS and Hard Armor plates cut to SAPI/ESAPI/SPEAR and Swimmer in the corresponding soft armor size, ie. Medium Plate and Medium Soft Armor fit a Medium Sleeper™.

Designed in conjunction with Crye Precision™.

COLOR/SIZE	SMALL	MEDIUM	LARGE	EXTRA LARGE

THE SIEGE™

Shown with Armor Carrier Shoulder Pads (not included)

WORKS GREAT WITH:
AGB, & the ECP™

WEIGHT FOR MEDIUM CARRIER:
2.92 lbs

MSRP: \$430.00
Add \$30 for Multicam

The Siege™ is a full up integrated tactical carrier designed for Direct Action Operations. The Siege™ quickly integrates additional armor protection as mission dictates and provides 360 degrees pocket attachment fields for mission tailoring requirements. The vest can be removed without taking it off over the head for rapid access to administrative pockets or medical treatment to the torso at the left and right shoulders with the ITW G Hook. In CBRNE environments this minimizes the risk of breaking the seal on the User's protective mask during decontamination procedures.

Fits Soft Armor cut to the shape requirements specified for US SOCOM SPEAR BALCS and Hard Armor plates cut to SAPI/ESAPI/SPEAR and Swimmer in the corresponding soft armor size, ie. Medium Plate and Medium Soft Armor fit a Medium Siege™.

Shown with ECP™ (not included)

BODY ARMOR GROIN PROTECTOR

Interoperates across the line of FirstSpear™ armor carriers to provide a one size fits all solution for rapidly employing supplemental protection to the groin region. Accommodates soft armor inserts made to Military Specific threat protection or NIJ requirements and accepts 6" X 6" high velocity rifle protective plates. Will fit several other existing carriers with hook and loop interface.

THE BEAT UP™ PC (PLATE CARRIER)

WORKS GREAT WITH:
AGB, Sleeper™ & the ECP™

WEIGHT: 2.52 lbs

MSRP: \$349.98
Add \$25 for Multicam

ATTACHMENT KIT MSRP:
\$34.98, Add \$5 for Multicam

With a name borrowed from the lexicon of the elite Long Range Desert Group (LRDG) of World War II, a “Beat Up” was considered to be a raid, ambush or direct action of the type that group favored and this PC is developed for just that sort of operation. The Beat Up™ is lightweight and integrated with all appropriate functions that reflect input from Professional Users, the experience of the FirstSpear™ Design Team and the very best in modern materials technology. An optional attachment system of 8 straps gives the User the capability of directly attaching the Beat Up™ to either the OAGRE™ or Sleeper™ for maximum tactical flexibility. Essential gear for your next “Beat Up”.

Fits Hard Armor plates cut to SAPI/ESAPI/SPEAR and Swimmer in the corresponding size, ie. Medium Plate fits a Medium Plate Carrier.

SHORT INCURSION CHEST RIG (SICR™)

WORKS GREAT WITH:
All First Spear Armor Carriers

WEIGHT: 0.78 lbs

MSRP: \$90.00

Add \$9.50 for Multicam

BLACK KHAKI RANGER
COYOTE MULTICAM®

The SICR™ exhibits minimal design for Less Visible Operations or Personnel who may use a carbine as a secondary or alternate weapon (i.e. crew served weapon operators, drivers etc.). Holds up to six 30 round 5.56 magazines from various manufacturers and has a left and right MOLLE Field that provides attachment for radios, first aid kit and other essential pockets. This chest rig is extremely lightweight and low in bulk/profile, utilizing NIR Suppressive materials and hardware throughout. The SICR™ lives up to the old Infantry adage “bullets and water are all you need for the slaughter”!

Multicam 500-12-00003-004-00

DROP LEG PANEL

The Drop Leg Panel incorporates some functional designs that allow it to be worn off an extender or attached directly to the AGB. The Drop Leg Panel will accommodate holsters or quick detach panels for holsters as well as various pockets. Since wearing a leg panel can sometime block access to certain pockets on the User's pants, the Drop Leg Panel comes standard with a zipper access pocket at the top. Spacer material on the back provides comfort and stand-off for ventilation.

WEIGHT: 0.575 lbs

MSRP: \$65.98
Add \$6 for Multicam

PATROLLING SUSPENDERS FOR AGB

Much emphasis has been reapplied to dismantled patrolling. The AGB Patrolling Suspenders are a modern facelift to older, well-proven battlefield designs. Openings on the bottom edge of the belt section allow for direct attachment of the Drop Leg Panel, SSV Holster and other equipment to the AGB. Extremely lightweight and highly flexible, this item in conjunction with the AGB can be worn alone or in concert with the Sleeper™ and/or SICR™.

ASSAULTERS GUN BELT (AGB)

Where the rubber meets the road, the Assaulters Gun Belt (AGB) is all about function. Accessed through a two-point, high strength metallic buckle, the AGB will facilitate combat equipped buddy drags. It can be integrated to the OAGRE™ for additional equipment space and also accommodate many different FirstSpear™ components that will help optimize it for the full spectrum of tactical and discretionary operations.

MSRP: \$59.98

MISSING LINK™

A FirstSpear™ solution to an ongoing User equipment challenge. Previously, pockets had to be built with a different attachment system to make them work on a belt vs. a vest or other platform; the Missing Link™ allows you to use a standard MOLLE attaching strap and attach it directly to your AGB. With the Missing Link™, there is no sloppy interface or shift in the position of your pockets. Will work with other MOLLE style pockets or belts not made by FirstSpear™, but it works best with ours!

Patent Pending

SIZING

FirstSpear™ utilizes the SPEAR BALCS Soft Armor cut and size scheme actively in use with US Special Operations Command (SOCOM). This size and cut corresponds closely to the uniform size chart in use for the previously issued Battle Dress Uniform (BDU). This size comparison is only for initial selection based upon operational roles and responsibilities, the User may elect to size down or up based upon preference. FirstSpear™ Customer Service Reps are standing by to assist you if required in arriving at an educated choice to your selection of our Armor Carriers. In the end we want you to be comfortable; not only in fit, but also in confidence that you have the desired amount of protection your mission and duty position allows you.

COMPLETE ARMOR SOLUTIONS

FirstSpear™ partners directly with select armor manufacturers to achieve specific hard and soft armor ballistic protective results that work with our carriers. We only work with manufacturers who make a product worthy enough of being put in our systems and carried by a Professional User.

Defining ballistic requirements can sometimes be difficult to accomplish, levels of threat protection, military capabilities and departmental policies are but a few of the factors that must be considered. FirstSpear™ offers two basic selections for your initial consideration. In both hard and soft armor we have available the latest NIJ .06 ballistic protection to answer law enforcement and security requests. Also in both hard and soft armor we offer integrated ballistic solutions that meet threat specifications levels mandated to protect SOCOM Personnel under SPEAR BALCS Operational Requirements.

Contact us with your requirements and specific needs, we are standing by to execute.

EXIGENT CIRCUMSTANCE PACK (ECP™)

WORKS GREAT WITH:
Beat Up™, DAGRE™, & Siege™

WEIGHT: 1.74 lbs
VOLUME: 1060 cu in

MSRP: \$225.00
Add \$14 for Multicam

MSRP FOR ECP™
INTERNAL FRAME: \$19

A true Assault Pack, the ECP™ is quickly and cleanly attached to many different platforms or utilized in a stand-alone mode, carried like a backpack or as a single strap bag that keeps your shoulder pocket clear for the stock of your weapon. The exterior flap is secured with shock cord and provides enough space to hold a helmet, positive air breathing system like the CV420 or can be completely removed. The pocket inside the exterior flap can hold the Avon M53 Series Protective Mask and has an elastic daisy chain that is sized to hold flash-bang and smoke grenades. The rear-most pocket can hold an included comfort pad, hydration bladder of up to 3 liters, or optional internal frame. The ECP™ is designed to support your next “no knock, no warning” entry mission!

HOTEL 23 PACK SYSTEM™

AVAILABLE FALL 2011-ACCEPTING PRE-ORDERS

WORKS GREAT WITH:
SICR™, Nalgene Bottle Pocket,
and GP Pockets

WEIGHT: 5.54 lbs
VOLUME: 1750 cu in
(main compartment)

MSRP: \$499.98
Add \$60 for Multicam

A mid-size pack system, the Hotel 23, incorporates many unique features requested by members of Special Mission Units who frequently have to carry a combination of a precision rifle and a carbine or PDW. Tunnel flaps on the sides of the Hotel 23 can securely transport a telescoped SPR. Additional features accommodate discrete deployment and storage of a spotting scope, Manfrotto® tripod and other equipment. The top flap of the Hotel 23 is a courier style bag that can be used from the ORP going forward or on its own to support travel requirements. For either pushing out on your next real time operation or evading post-apocalyptic zombies on an evasion tour of central Texas the HOTEL 23 is ready!

SELF-AID POCKET AND INSERT

Listening closely to Tactical Medicine Providers in the joint SOF community, FirstSpear™ has designed the Self-Aid Pocket and Insert. This system provides left or right access to the User when slumped over, flat on the back or seated in a vehicle. The insert is highly secure inside the carrier and upon being removed can be affixed via hook and loop to the Admin Pocket face, giving immediate one-handed access to its contents.

BLACK RANGER COYOTE MULTICAM®

Borrowing its name from the battle proven ethos of Speed, Security and Violence of Action, FirstSpear™ has established an official agreement with Safariland™ to have the legendary Self Locking System (SLS) holster body supplied with special incorporations that make it an even better fighting system. Completely wrapped in sound and signature suppressive nylon and utilizing a mounting platform that has break strength exceeding 450 foot pounds, the SSV Holster comes standard with a 1.5" molded belt drop (UBL), Flat Dark Earth (FDE) in color and sized to fit the AGB. Also included is a removable leg strap with a quick-detach swivel.

THE OPTIONAL MOLLE STYLE INTERFACE WITH QLS RECEIVER AND FORK allows the User to quickly attach the SSV Holster to the chest or cummerbund of load carriage and armor carriers. Additionally, this plate is sized to fit on the Drop Leg Panel, creating a comfortable and easy to adjust leg rig.

THE OPTIONAL MOLLE STYLE INTERFACE QLS FORK WITH PALS PLATFORM ATTACHED gives the User three rows by three rows of PALS webbing. This allows the attachment of items that need to be rapidly disconnected from the MOLLE Platform (ie. radios for recharge requirements, GPS etc.) and protects the MOLLE Interface.

COMBAT ANORAK | AVAILABLE FALL 2011-ACCEPTING PRE-ORDERS

FirstSpear™ clothing was designed to function with your overall fighting system. The Combat Anorak typifies this vision. Oversized to work with you when in helmet and body armor the Combat Anorak has a unique feature which can make a critical difference; a single quick pull exposes the center of your load carriage and gives quick access to reloads and other critical assets. Wind and water resistant, it also stores inside its own carry pouch to fit into an external GP Pocket or the cargo bin on your pants.

THE OTHER GUY SOFTSHELL JACKET
AVAILABLE FALL 2011-ACCEPTING PRE-ORDERS

You know him, “the other guy, the one who does his job” and that is exactly what this piece of equipment does; with smooth style and critical performance when the temps drop and the wind blows. Durable Water Repellent (DWR) treated, plush lined and smart positioned pockets that will work with armor and load carriage platforms, an additional option of Flame Retardant construction. You can count on The Other Guy.

WORKS GREAT WITH:
Sleeper™, OAGRE™ & Woobie

WEIGHT FOR LARGE: 1.7 lbs

MSRP for Standard: \$349.99

MSRP for Flame Retardant: \$425.99

SQUADRON SMOCK | AVAILABLE FALL 2011-ACCEPTING PRE-ORDERS

A hybrid garment that depending upon your circumstances can be a uniform top, a weather barrier, or even hasty load carriage. An oversized hood will fit over your helmet with most night vision attached and an easily adjusted stiffener in the bill will help keep the shape. Loaded with pockets and features, the Squadron Smock has a loose fit to accommodate additional layers. Oversized buttons that interface into slightly undersized holes provide security from windblast received in open vehicles or helicopters. The Squadron Smock has so much character that Colonel Sir David Sterling would have worn it.

KHAKI/OD

SHOOTER'S HAT

Fighting equipment has gotten more advanced and FirstSpear™ has developed a hat solution that does more than just cover your head. This headgear has wicking and stretch fabrics that will keep sweat out of your eyes. The seams are all smooth to present a minimal profile under your hearing/eye protection and, impact pads of most bump and ballistic helmets. The bill is intentionally short as not to conflict with your optic, but still keep some sunlight and rain out of your eyes.
